CT400-5 AXES COMPACT EDM DRILL
 with Siemens 840Dsl Control
 The CT400-5A is a Compact EDM drilling machine specifically designed for production drilling of complex parts requiring Five-Axes positioning.

RT6050-5 Axes EDM Drill.with Siemens 840D Control.
 With Automatic Electrode and Guide Changing
 It features a generous work envelope of 48in. diameter by 30in.height and table capacity to 8,000 lbs.
NOW- AVAILABLE IN A TWIN-HEAD CONFIGURATION!!

Additional Capabilities:
Special Machines

Design and build custom production machinery to accomplish your high-speed EDM Drilling objectives.

Model RAD - Robot Aided Drilling
 Designed for robot processing to EDM Drill your parts. A Six -Axis Robot is used to load/unload, parts and fixtures as well as positioning and holding the parts during the actual EDM drilling process.

Coming Soon!!
JT300 COMPACT MANUAL EDM DRILL
 with Manual Control & 36 Amp Power Supply

Current EDM Quality at an Economical Price!

Made in JAPAN
